

Atlantic Systems Manufacturing has an immediate opening for a Mechanical Design Engineer in our growing company.

Requirements:

- Minimum 2 years experience with 3D CAD modelling (Autodesk Inventor preferred)
- Working knowledge of AutoCAD
- Experience in creating fabrication drawings
- Background in machine design with a mechanical aptitude
- Ability to read and interpret Engineering Drawings
- Project management would be an asset but not required, potential for advancement for the right applicant
- Able to work in a fast paced environment where teamwork is essential
- Good communications skills
- Strong Organizational and Planning Skills
- Proficiency with Microsoft Office

Responsibilities

- Prepare engineering designs & drawings based on preliminary concepts, sketches, calculations & customer specifications
- Examine drawings for conformity and errors
- Create Equipment Parts list for designs
- Participate in design review meetings
- Ability to meet deadlines
- General shop & office support
- Occasional travel will be required

Salary

- To commensurate with qualifications and experience

To apply, please send your resume, cover letter and, if possible, sample design drawings to Linda Batt at lbatt@asmequipment.com by April Apr.12th. For more information website our www.asmequipment.com
